DISCUSSION ON AUNILO ENHANCING INFORMATION DISCOVERY THROUGH MOBILE TECHNOLOGIES

1st – 2nd JUNE 2012

NATIONAL UNIVERSITY OF SINGAPORE

No.	RESOLUTIONS	ACTION
1.	Preliminary Meeting between the AUN Secretariat, AUNILO Secretariat and host country is recommended before the Meeting.	**AUN/AUNILOSecretariat, Host**
2.	Next Meeting agenda should discuss the change of name of AUNILO. Secretariat should initiate the email of discussion for that matter.	**Secretariat, Member countries**
3.	Members are encouraged to contribute to enhance AUNILO portal. RSS feed will be created in the portal. Login id and password of the portal will be given to each member libraries to make it easy for them to post any relevant updates.	**USM, UM, Member countries**
4.	The option whether discovery service for central repositories or a server for harvester to be developed will be reviewed and a proposal will be drafted. Member libraries will be notified through email for further discussion.	**NUS, SMU**
5.	AUNILO Secretariat will send invoices to all members regarding AUNILO portal enhancement fee at least 2 months before end of the year.	**Secretariat**
6.	Pathfinder on Peranakan collection will be uploaded into AUNILO Portal. Lanna collection of CMU will also be linked	**USM, CMU**

	into the portal to enhance its content.	
7.	Proposal for training on Social Media will be drafted by UP and will be discussed among members. Training programmes suggested on social media for AUNILO librarians, eg. writing of apps. Meeting agreed that members can keep a look out for free apps that can be adopted by AUNILO member institutions as apps are not cheap to write or buy. Meeting also agreed to share good practices based on what institutions have implemented. Libraries can show other librarians what they know and selection of training can be based on preference. It is necessary to do fast because mobile technologies change very quickly. Good to have mobile technologies on AUNILO portal. NUS will check if service providers can suggest anything for AUNILO network. - NUS will collate a list of mobile technologies implemented by member institutions. Those who are relatively further ahead can train other librarians from AUNILO member libraries via virtual learning platforms such as webex. Other the librarians can come over and learn as interns. Meeting also set resolution to explore possibility of exchanging librarians to learn more of each other libraries' good practices. - It was suggested that it is important to adopt apps after taking into consideration users' expectation and usability. It is quite common to have technology-related projects which are implemented without such considerations. SMU suggested exploring "library anywhere"website.	**UP** **NUS** **NUS**
8.	Meeting minutes and resolutions should be distributed 2 weeks after the meeting.	**AUNILO Secretariat**
9.	AUN will email the criterias on becoming AUNILO members to the Secretariat.	**AUN**
